

Job Title: Data Analyst

Location: Remote

About the Role:

We are seeking a highly motivated Data Analyst to join our analytics team.

The candidate will be responsible for collecting, cleaning, analyzing, and visualizing data to support business decisions.

Key Responsibilities:

- Collect and preprocess structured and unstructured data from multiple sources
- Perform exploratory data analysis (EDA) and generate insights
- Develop reports and dashboards using tools like Tableau or Power BI
- Work with cross-functional teams to understand requirements
- Provide data-driven recommendations to improve efficiency

Requirements:

- Strong knowledge of Python and libraries such as Pandas, NumPy, and Matplotlib

- Experience with SQL for data extraction and manipulation
- Familiarity with data visualization tools (Tableau, Power BI, or similar)
- Excellent problem-solving and analytical skills
- Good written and verbal communication

Preferred Qualifications:

- Bachelor's degree in Computer Science, Statistics, or related field
- Experience with machine learning basics
- Understanding of cloud platforms (AWS, GCP, Azure) is a plus

Compensation:

Competitive salary with performance-based bonuses.
